What do you like most about this course?

Comments

The teacher's language is lively and interesting, and he explains the class content very clearly and in detail.

I like the instructor's method of teaching as well as his notes that he posts after class. They all help a lot in my understanding of the course. The questions that I ask are also usually answered with precision which helps me feel confident on certain ideas that I might initially struggle with.

I like the teaching style and the excellent ability of the professors. All the examples are helpful for me to understand the content.

The professor has made this ultimately boring course very interesting and I have been learning this course effectively when I expected to struggle.

What do you think needs improvement and how should these improvements be made?

Comments

I think the course is perfect as it is. I would just request additional videos that we can watch to gain a deeper understanding of the course.
